

SAYS CITY SCHOOLS ARE SECOND TO NONE

Congressman Moore So Tells Graduates of James Ormond Wilson Normal School.

"Washington does not take a place second to any city in the United States so far as its educational system is concerned," Congressman J. Hampton Moore, of Pennsylvania, told graduates of the James Ormond Wilson Normal School. Exercises were held yesterday afternoon at the school.

Congressman Moore emphasized the need for "getting back to nature" and praised the playground movement as a means of accomplishing this end.

Henry P. Blair, president of the Board of Education, presided and E. L. Thurston, Superintendent of Schools, presented diplomas.

These diplomas are equivalent to placing the graduates on the available list of teachers. The graduating class was a number of choice selections.

The list of graduates follows:

General course—Marie Louise Albright, Elizabeth Marie Andrews, Marjorie Annie Aubright, Helen Elizabeth Bessler, Mary Ethel Brockman, Lyla Mildred Coates, Lois Crowell, Thelma Davis, Pauline De Brodes, Cherrill Dixon, Mildred Christine Duval, Edith Eastack, Bertha Egan, Helen Elsie Enoch, Harriet Elsie Enoch, Helen Elsie Enoch, Agnes Josephine Gregory, Estelle Caroline Grist, Audrey Veronica Hazell, Bernadette Hyerant Hotfield, Elizabeth Ann Hind, Ines Hogan, Allie Eliza Hohn, Lucy Eleanor Hopkins, Margaret Ellen Hudson.

Lucile Adele Knapp, Glendora Ellen Knaub, Mary Eugenie Loman, Kathryn McCoach, Frances Eloise McKnight, Elizabeth Findlay Molster, Esther Antell Mortimer, Emily Nixon Moss, Katherine Newton Munson, Harriet Lenore Murray, Evelyn Naylor, Elsie Fidelity Nickles, Virginia Boal Perkins, Rebecca Forten, Kathleen Edith Price, Katharine Mary Rich, Dorothy Henrietta Russell, Gladys Mildred Shedd, Margaret Anne Siler, Dorothy Stells, Janet Thornton Stringfellow.

Mary Bernadette Tenneyson, Genevieve Elwood Thomas, Lillian Viola Timberlake, Eugene Hildreth Todhunter, Catherine Mary Tongue, Katharine Elizabeth Trotter, May Helm Trundis, Mabel Emma Turner, Gladys Ruth Walford, Ethel Elizabeth Walther, Mary Selena Yost.

Kindergarten course—Helen Elizabeth Blackstone, Jean Lawson Molster, Rebecca Martha Rogers, Helen Susie Sturtevant, Mary Margaret Thompson, domestic science course—Elizabeth Hochelson, Gertrude Amanda Thompson.

Domestic science course—Rosa Bittner.

Special course—Adolph Irwin Richmond.

Class officers are: Emily Nixon, president; Rebecca Martha Rogers, vice president; Elizabeth Findlay Molster, treasurer; Elsie Fidelity Nickles, secretary; Gladys Mildred Shedd, valedictorian.

Thieves Like to Rob Authorities

One Note Left Said: "You Couldn't Catch a Cold, Much Less Us Fellows."

BIRMINGHAM, Ala., June 22.—"All sheriffs, policemen and other law blokes look alike to us. Mr. High Sheriff of Jefferson County, you need not expect to get any fees out of this stunt," read the note left in the home of Sheriff J. T. Batson by burglars who made a haul.

When Sheriff Batson arose to dress, his clothes were gone, his badge missing, and his Shriners pin and revolver nowhere to be found. It was the fifth time the home of the sheriff, his deputies and some police officers here have been entered by burglars in a few months.

A pickpocket released Deputy Sheriff Julius Green of \$50 on a street car a few nights ago and left in the officials pocket a note that read: "You fellows who imagine you are enforcing the law can't even look out for yourselves. Think it over."

In several cases notes were left inciting the offenders picked out the authorities in a spirit of defiance. One note read: "We're not afraid of guys or your build. You couldn't catch a cold, much less us fellows in this business."

Frederick L. Harvey Cutter Suffers Serious Injury

Frederick L. Harvey Cutter, 1724 Euclid street, is at Providence Hospital paralyzed from his neck downward, as the result of a bathing accident at Chesapeake Beach yesterday during the Chamber of Commerce outing.

Harvey Cutter, when attempting a dive from the pier, slipped and fell. When he struck the water he sank. Dr. E. J. Schreth, of 707 Maryland avenue northeast, brought him to the surface. He was given first aid by Dr. F. C. Batson, who was rushed to the city by train. His condition is regarded as serious.

Various Forms Of Headache

"It is necessary in order to treat headache properly to understand the cause which produces the affection," says Dr. J. W. Ray, of Brooklyn, Ala. Continuing he says, "Physicians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose, anti-kamala tablets will be found a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuritis and particularly the headache of women."

When we have a patient subject to regular attacks of headache, we should caution him to keep his bowels regular, for which nothing is better than "Act-O-Kam" and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few anti-kamala tablets, so as to have them ready for instant use. These tablets are prompt in action and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets.

Anti-kamala tablets at all druggists.

Breweries Plan to Make Fruit Juice

Consolidation of Three Beer Plants Into Soft Drink Company Announced.

PORTLAND, Ore., June 22.—The prohibitory movement in the Pacific northwest has resulted in something closely suggesting the biblical conversion of swords into plowshares and spears into pruning hooks. Peter G. Schmidt, head of the Olympia Brewing Company, of Olympia, Wash., announces the consolidation of the Olympia, Wash., Salem, Ore., and Bellinham, Wash., breweries into the Northwest Fruit Products Company, for the manufacture of fruit juice beverages salable in Washington and Oregon under the prohibition laws.

Manufacture of such fruit beverages commenced at the Salem plant last year, where the manufacture of beer was discontinued a year ago. Apple and loganberry juices will be used principally in the new output. The Salem plant will operate on loganberries exclusively this year.

The Olympia brewing plants will be maintained in the expectation that the manufacture of light beer and other fermented drinks in both states will eventually be permitted and encouraged as an offset to the consumption of whisky and other raw spirits under the present dry law.

Officers of the new merger company are: F. M. Kenny, of the Olympia National Bank, president; Peter G. Schmidt, Olympia, secretary; Frank J. Schmidt, general manager, Salem, Ore.; Henry Schupp, manager at Bellinham.

TINSMITHS' CLAMOR IS MUSIC TO BEES

Induces Swarm to Settle With Noise They Made.

NEW YORK, June 22.—How discord of inharmonious sounds soothed the savage breasts of brutish bees and lured them into a hive was told yesterday in the Yonkers police court, where Kenneth W. Brown, an attorney, of 14 Hamilton avenue, accused two tinsmiths of having been stung to his honey-making.

The tinsmiths, Fred Eckes and Albert Stavos, of 136 Beech street, who were summoned to court, admitted that when they saw thousands of bees swarming they rushed together two pieces of tin, and thus induced the silly wanderers to descend and be stung.

But the defendants asked that Mr. Brown be compelled to prove his ownership. Judge Beall adjourned the case for two days in order to give the attorney opportunity to do this.

"Gains" Enough to Enlist.

BALTIMORE, June 22.—Having been twice refused for being under weight, Frederick Fletcher, a newspaper man, was complimented by Colonel Hinkley, of the Fifth Regiment, for his persistency. The colonel told Fletcher, at the Fourth Regiment, where upon being weighed and found not wanting, he was accepted.

Today he is wearing a uniform.

TILLMAN FOR WHOLE FLEET IN ONE SHIP

Asks Naval Subcommittee to Authorize Building of Super-Super-Super-Dreadnaught.

Chairman Tillman today urged the Senate naval subcommittee, drafting plans for the enlarged American navy, to authorize a ship of 60,000 tons, 903 feet long, armed with fifteen eighteen-inch rifles, with a speed of thirty-five knots to cost \$30,000,000.

This ship would have approximately twice the power of any vessel afloat. It would be the largest craft that could pass through the Panama canal.

"It would be the most tremendous argument for peace the world knows," said Tillman. "It could whip a whole fleet of ordinary battleships—scatter them like an ordinary battleship can scatter scout cruisers."

"When the Oregon was built, we thought her twelve-inch guns invincible, her size about 10,000 or 12,000 tons, and her eight-knot speed marvelous."

"Every new type since has gone up a notch in power, speed, and displacement."

Why not take a half dozen notches at once and have the most powerful ship in the world? We're trying to impress other nations with a program this one ship would impress them more than an entire fleet.

Naval experts have told Tillman, he says, the ship is entirely feasible. Its 18-inch guns would shoot over twenty miles—further than a naval target can be seen—and would strike with more terrific force than the German 8-centimeter (8-inch) shells. A beam of 105 feet and a draft of 32 feet would be needed to stabilize the craft.

He would name the ship the United States.

Indications were that the committee will adopt the general board recommendation of four dreadnaughts and three battle cruisers for the first year's program. If Tillman's ship is approved, it will be counted as two battleships.

SUSPECT FOUL PLAY IN MAN'S DROWNING

Boat Capsizes as Man Steps Into It From Float.

GREENWICH, Conn., June 22.—Michael McLaughlin, a servant for Dr. Alfred E. Mitterdorf, was drowned last night when a boat into which he was stepping at the float of the Indian Harbor Yacht Club capsized. His body was recovered by Capt. Christopher Christensen this forenoon.

There was suspicion of foul play, because of an argument among McLaughlin, Harry Anderson, and Julius Coscolla. Anderson and Coscolla, both employees of the Mitterdorf estate, were arrested today and held in \$12,000 each until tomorrow. Coroner Phelan, of Bridgeport, probably will hold an inquest here.

HUNCH LEADS MAN TO HIDDEN MONEY

After Fruitless Search, Heir Discovers Cash in Cellar.

READING, Pa., June 22.—A "hunch" proved a money winner for John Henry, brother and executor of Mrs. Pauline Trump, who died here several weeks ago.

On her deathbed Mrs. Trump tried to tell him where she had buried some of her money, but her end came too soon. Henry has since been hunting all over the house for the money, without success.

Last night he got a sudden idea. An annex had been built to the house some years ago, and Henry suddenly remembered that where the new cellar wall joined the old there was a deep recess. A brief investigation and he found a canvas bag, containing \$175,000, all in \$20 gold pieces.

Mrs. Trump was worth over \$15,000, most of it in real estate. She had little faith in banks.

Ashlar Club to Meet On Saturday Evening

The Ashlar Club of Master Masons will meet in Pythian Temple Saturday evening. An entertainment, as well as the regular business of the club, is planned.

The program includes violin solos by Master Joseph Ratner, songs by Charles D. Shackelford, past master of Lebanon Lodge, and Marland S. Wright, and a lecture on the Glacier National Park by Mrs. Marius H. Campbell.

President Millard J. Holmes and Secretary Hubert G. McLean, of the Ashlar Club, announce that this is the last meeting before the closing for the summer, and a large attendance is expected.

LOVE LETTERS OF ORPET ADMITTED

Missives Revealing Relations With Marion Lambert To Be Brought to Court.

WAUKESHA, Ill., June 22.—Will H. Orpet's letters telling of his love for Marion Lambert and revealing the intimacies which existed between them are to be used against him in court.

After a bitter wrangle between opposing counsel lasting through the greater part of yesterday, Judge Donnelly this afternoon ruled that the missives should be introduced.

"I will allow the letters to be entered," Judge Donnelly said, "but the jury will remember that the defendant is charged with only one crime. The letters may be considered as showing a motive why he should commit that crime. They must not be considered as evidence that another crime was committed."

Everett E. Frigana and N. A. Brown, reporters of Chicago newspapers, told of conversations they had had with Orpet before and after his arrest.

"Orpet told me," said Frigana, "that he met Marion in Heim's woods on the morning of February 3 and tried to break off relations with her. Then, he said, 'I left here and went back to Madison, and the first I knew of her death was when I read about it in the newspapers.'"

"I asked him some more about Marion and he said he had been intimate with her and that she had pleaded with him in the woods not to leave her."

"I told her I was through," Orpet said.

to me. It was an affair in which I never once said I would marry her. You know the kind. He was very cold blooded about it."

"I mentioned to Orpet the fact of the missing bottle—that they didn't find in Heim's Woods," went on the witness, "and which was supposed to have contained the poison. Orpet said he could save the prosecution a lot of trouble by telling them what became of the bottle. 'Orpet finally told me,' said Frigana, "that when he left Marion in the woods that morning he walked for ten or fifteen feet and stopped because he heard a little cry. He turned around and saw her drinking poison. He said he went back to her and she was dead. He said he had not tried to poison the body, but ran away as fast as he could. He said: 'I didn't know my alibi in Madison would turn out to be such an alibi. I'd missed my bed up in my room and everything so as to look as if I'd slept there, you know.'"

Civil Service Quizzes.

The Civil Service Commission announces the following examinations: Ordnance draftsman, male, \$2.25 to \$7.94 per diem, July 15; instrument maker, male, \$2.54 per diem, July 2.

VENUS 10¢ PENCIL

Made in America by American Workmen with American Materials

By specifying VENUS you get the finest pencil in the world, (made in 17 black degrees and a copying) and you patronize home industry.

GOODYEAR Cord Tires

once considered the special prerogative of the larger and costlier cars.

But now a tremendous demand has sprung up among owners of cars of every size, and almost every class.

For these motorists also are keen for the longer gas mileage, the power-saving and the freedom from stone-bruise which are assured by Goodyear Cord Tires.

And they do not let a slightly higher price stand in the way of getting such advantages and economies.

Goodyear No-Rim Cord Tires are made strong, safe and sturdy by these unique advantages:

- Jars and jolts are combatted by great overalls and the suppleness of Goodyear Cord construction.
- They are easy to put on and take off because they do not rust fast to the rim.
- Blow-outs are lessened by our No-Rim-Cut feature.
- Punctures and skidding are reduced by our double-thick, All-Weather Tread.
- Loose Treads are eliminated by our Wrapped Tread Process.
- Blowing off the rim is prevented by our Braided Flange Wire Base.

GOODYEAR CORD TIRES

Goodyear Tires, Heavy Tourist Tubes and "Tire Saver" Accessories are easy to get from Goodyear Service Stations Dealers everywhere.
